

PROFESSIONAL SUMMARY

Detail-driven QA Engineer with 3+ years of experience ensuring product excellence in **real-time, distributed systems**. Improved release velocity by **40%**, reduced manual testing by **60%**, and increased defect detection rate by **30%** using scalable test strategies across Agile teams.

EXPERIENCE

Comviva Technology, Senior Product Validation Engineer , July 2022-Present

- Document Test Scenarios, Test Cases, and Test Scripts.
 - Execute Test Cases and Report results. Risk analysis and test status reporting using JIRA. Ability to reproduce production defects.
 - Build and Maintain **Automation Script Suite**. Utilize **Test Frameworks** and CI/CD tools effectively.
 - Understand and apply TDD, BDD, and Shift Left concepts.
 - Experience in all phases of testing: **System Integration (SIT)**, **Functional**, **User Acceptance (UAT)**, **Regression**, **Sanity**, **E2E (End to End) testing**, and **System** testing.
 - Apply **Agile** Methodology and Manage tasks using Jira.
 - Identify and Analyze Defects, and Collaborate with Ops teams for quality assurance and timely bug resolution.
 - Utilized containerization tools like **Docker** and applied **Kafka** expertise to validate distributed systems and real-time data streaming pipelines. Excellent skills in troubleshooting.
-

SKILLS

Programming Languages: Python

Database & Querying: SQL, PostgreSQL, SingleStore

Testing & Automation: Selenium WebDriver (Hybrid Framework), Robot Framework Test Automation, Postman (API Testing). UiPath

Cloud & Infrastructure: Docker, AWS

API Testing: Postman, Swagger UI

Version Control & DevOps: GitHub, Jenkins

Data Streaming & Messaging: Apache Kafka

Operating Systems: Linux, Linux Shell Scripting

Software Development Lifecycle: SDLC, Agile Methodology

Monitoring & Observability: Prometheus, Grafana

Bug Tracking: JIRA

KEY ACHIEVEMENTS

- Awarded "**Unit Level Leader's Choice Award**" for exceptional leadership & a demonstrated Growth Mindset.
 - Honored with "**CREDO CAP AWARD**" for delivering exceptional results through a customer-centric approach and process improvements.
 - Recognized with "**ACE Card**" for executing 1,500+ test cases within a strict 3-day timeline, achieving 80% code coverage and meeting critical project milestones.
