

PROFESSIONAL SUMMARY

QA Engineer with **3 years** of experience validating real-time, distributed systems across fast-paced **Agile** environments. Proficient in **Kafka**, **PostgreSQL**, and **Selenium-based automation**, with a proven track record of enhancing quality and accelerating release cycles. Recognized with awards for **leadership**, **precision**, and a **growth-driven mindset**. Passionate about building scalable test strategies, catching bugs early, and delivering clean, high-performing products.

EXPERIENCE

Comviva Technology, Senior Product Validation Engineer , July 2022-Present

- **Led 20+ client releases** collaborating closely with DEV teams to coordinate sprint deliveries and ensure timely rollouts.
 - Conducted **functional**, **regression**, **smoke**, and **sanity** testing across all components, ensuring release readiness.
 - Validated databases using **PostgreSQL** and **SingleStore**, ensuring **ETL** and real-time data integrity.
 - Diagnosed and resolved runtime issues through log analysis, cutting resolution time by **50% and ensuring reliability**.
 - Managed SDLC through Jira, from reporting to tracking and analyzing escape defects to ensure quality.
 - Leveraged **Kubernetes**, **Docker** and **Kafka** to test distributed architectures and real-time streaming pipelines effectively.
 - Enhanced code quality with **Jacoco**, ensuring more than **80%** code coverage.
 - Authored **2000+ test** by analyzing SRS/FSD docs, covering both functional and non-functional areas .
 - **Automated 800+ testcases using Robot framework with Selenium**, reducing manual efforts by 40% .
 - Integrated **GitHub Copilot** and other AI tools into workflows to accelerate scripting and minimize repetitive tasks.
 - Participated in **10+ UAT cycles**, ensuring minimal post-release defects, & client satisfaction.
-

SKILLS

Programming Languages: Python

Database & Querying: SQL, PostgreSQL, SingleStore

Testing & Automation: Selenium WebDriver (Hybrid Framework), Robot Framework Test Automation, Postman (API Testing)

Cloud & Infrastructure: Docker, AWS

API Testing: Postman, Swagger UI

Version Control & DevOps: GitHub, Jenkins

Data Streaming & Messaging: Apache Kafka

Operating Systems: Linux, Linux Shell Scripting

Software Development Lifecycle: SDLC, Agile Methodology

Monitoring & Observability: Prometheus, Grafana

Bug Tracking: JIRA

KEY ACHIEVEMENTS

- Awarded "**Unit Level Leader's Choice Award**" for exceptional leadership & a demonstrated Growth Mindset.
 - Honored with "**CREDO CAP AWARD**" for delivering exceptional results through a customer-centric approach and process improvements.
 - Recognized with "**ACE Card**" for executing 1,500+ test cases within a strict 3-day timeline, achieving 80% code coverage and meeting critical project milestones.
-

EDUCATION

DEGREE	INSTITUTION / BOARD	YEAR
MCA	Amity University Kolkata	2020-2022
BCA	Amity University Kolkata	2017-2020
